I could start off saying: As WE enter a New Year..., but in this there is a huge assumption. An assumption that everyone knows what I mean by “WE”.

By “WE”, I specifically mean the Southern white people, inhabitants of the Anglo-Saxon South, and all of our white friends and allies to some extent. I certainly do NOT mean the typical super nice black friend that every white person feels compelled to mention every time a real race conversation manifests itself in public. Nor do I mean some the mulatto children of some lost white cousin, nor do I mean the Mexicans your uncle may have hired in his construction business. I mean OUR people, the Southern White People.

As WE enter 2025, while being fed constant lies by the media, and experiences from institutions that are against our interests such as most churches, the public school system, and the corporate work place we must remember the huge amount of social power we can harness as a people that unfortunately we never utilize as people. We cannot use this power until we identify as White

people. This would be only right as we are the inheritors of the Anglo-Saxon South, and only we can save it.

Building the foundations of exclusive white community and networking is what we must do in 2025. We have to establish White community through any action possible, no matter how small the steps, every chance we get as this is also part of the mission of the Southern Cultural Center. National Chairman, Mike Whorton, and our Executive Officer, Ed Boardwine believe in supporting our own, and this is why they established and have maintained the Southern Cultural Center: the need for a Southern White refuge in a world gone mad. We have to take this desire for White community to the next level, but this is easier said than done due to the interconnected nature of our society and our White people needing jobs to survive in which they are forced to interact with black or browns and in many cases answer to them which is extremely undesirable.

On the subject of miscegenation, Southern Whites, while understanding many of them did not know any better, had horrible dilemmas created by our racially integrated society, the media obsession with race mixing, and often a measure of white coldness running them into the hands of non-whites, nevertheless, we must discourage miscegenation in every conceivable way. The survival of the Anglo-Saxon South depends on our discouraging miscegenation, otherwise we will become something of the similar substance of Cuba, Mexico, or even Congo in some areas as Alabama will cease to exist. Producing mulattos is one of the biggest physical threats to the South, and we can't lose this battle, our future depends on it. The damage does not require a mulatto child, as more Southern White families have mulatto cousins, nephews, and black or brown in-laws the less WE will be able to do socially and politically for OUR people due to White concerns for these mulattos and blacks in their midst. Race mixing compromises everything physically, socially, and politically and is very serious despite white innocence or ignorance concerning the issue. This innocence leading to bad decisions is even more reason to be aggressive and outspoken about the issue. Let us cure destructive ignorance!

We need more Southern Whites working for themselves and greater independence economically, a push toward all white neighborhoods, and greater community. Just as American Renaissance's Jared Taylor has expressed somewhat of a guide for building exclusive White community in print and video. In a recent video post on X (formerly Twitter), Jared discusses his White Christmas with people establishing a White community and measures the people took to accomplish it. I encourage you to follow American Renaissance @realAmRen on X.

The typical "American" high school Friday night football game is a celebration of integrated and race mixing America, our colleges are anti-white, pro-black, queer, and progressive institutions, the Republican Party does not represent us, and continues in spending our tax dollars on Ukraine and Israel against our will, our churches promote egalitarian universal brotherhood of the races, and put Israel over OUR own interest, BUT let US realize the dormant or unutilized power in our numbers, our people out of dire need to establish Southern White identity, exercise all we can socially until we can establish a new order of political power we desperately need for our own people rather than through the elite Jewish and progressive white run Democrat and Republican parties. Let US do it.

-Hoyt McCoy

Let us secede from sin, wickedness, ungodliness and tyranny. Obey the Word of God and follow God's Law. SECEDE TO SURVIVE.

WE WILL HONOR OUR PAST AND DRAW FROM IT STRENGTH, COURAGE, AND WISDOM TO OURSELVES TO GO FORWARD AND ATTAIN OUR FREEDOM AND INDEPENDENCE IN OUR OWN LAND. (Alabama)

We have a very exciting January planned.

The speaker for our January 16 meeting will be longtime SCC member Tyrone Crowley, who will introduce and offer excerpts from speeches made by Charles Lindbergh as part of the America First movement, which was supported by a large majority of Americans at the time (1940-1941) but was stalled by the attack on Pearl Harbor. Launched in September 1940, it surpassed 800,000 members in 450 chapters at its peak. The purpose of this presentation is to educate ourselves on some little-known American history that affected both North and South and, as Charles Lindbergh points out, European heritage in general.

The SCC 6th Annual Pheasant Shoot will be on January 18 9 am to 1 pm. See attached flyer for more information.

The SCC 1st Annual Lee-Jackson Supper will be held at the SCC on January 18 at 6 pm to 9 pm. The speaker will be Brother John Killian with a fine Southern supper of hamburger steak and all the fixings. See attached flyer for more information.
